June 10, 1996

Dr. David Salmon
Alzheimer's Disease Research Center
Department of Neurosciences
University of California, San Diego
9500 Gilman Drive
La Jolla, CA 92039-0948

Dear David:

Enclosed please find the final program for this year's Memory Disorders Research Society meeting to be held in Cambridge, MA., U.S.A., October 24-26, 1996. Also please find a registration form for the meeting and for the annual banquet. This must be returned to me by September 15. This year will be the first time that we have held the meeting for 2 1/2 days although this was tested and approved at the meeting in Cambridge, England last year. Many participants have requested this increase and the opportunity to extend their visit across a Saturday evening for our fare discount prices. The hotel will have information on tours and events that could be enjoyed that Saturday afternoon as relaxation after a busy meeting. If you have not yet registered at the hotel, The Sheraton Commander, they can be contacted at (617) 547-4800. Please let them know you will be attending this meeting.

See you in October,

LAIRD S. CERMACK, Ph.D.
Professor of Neurology
(Neuropsychology)

Enclosure
MEMORY DISORDERS RESEARCH SOCIETY

 Eighth Annual Meeting
 Cambridge, Massachusetts
 October 24-26, 1996
 Sheraton Commander

 Program
Thursday, October 24

8:00 SYMPOSIUM

Working Memory
Jim Becker, Chair
Jim Becker & Robin Morris
Models of working memory and their application to neuropsychiatry.
Pat Goldman-Rakic
Functional architecture of working memory in nonhuman primates.
Mark D'Esposito & Giuseppe Vallar
fMRI studies of working memory.

The phonological short-term store rehearsal system: Patterns of impairment and neural correlates.

10:00 BREAK

10:30 FORUM

Laird Cermak, Moderator
Leslie Ungerleider
National Institutes of Health

Insights into memory mechanisms through functional brain imaging.

12:00 LUNCH

1:30 SYMPOSIUM

Imaging
John Gabrieli, Chair
John Gabrieli
Frontal-lobe and hippocampal contributions to memory processes: Evidence from functional magnetic resonance imaging (fMRI).
Michael Rugg
Studies of episodic memory retrieval with brain potentials and functional neuroimaging.
Alex Martin
Modulation of brain activity when an object is seen again: fMRI studies of priming and remembering.
Ken Paller
Functional neuroimaging in Korsakoff's syndrome.

3:30 BREAK

4:00 PAPER SESSION

Mieke Verfaellie, Chair
Larry Jacoby
Diagnosing age-related deficits in recollection: Should I tip?
Terry Jernigan
Stimulus degradation effects in word priming and recognition memory: 0-15 PET results.
Beth Ober
Semantic memory in Alzheimer's disease: Its demise has been greatly exaggerated.

5:00 BUSINESS MEETING

7:00 BANQUET DINNER
Friday, October 25

Saturday, October 26

8:00 SYMPOSIUM

Are There Drugs to Improve Memory? Paul Solomon, Chair

Elkan Gamzu Developing drugs to improve memory: Perspectives from the pharmaceutical industry.

Bill Pendlebury Human clinical trials: How the FDA guidelines apply to memory enhancing drugs.

Paul Gold Memory enhancing drugs: Experimental studies in humans and animals.

Paul Solomon Memory enhancing drugs: Perspectives from human clinical trials.

10:00 BREAK

10:30 SYMPOSIUM

Amygdala Liz Phelps, Chair

Ralph Adolphs The role of the human amygdala in memory for faces.

Joe LeDoux Emotion, memory, and the amygdala: From circuits to synapses.

Liz Phelps Valence vs. arousal: The role of the amygdala in human memory.

Hans Markowitsch Differential Ephory of emotional autobiographical information in normals and a psychogenic amnesic - a PET-study.

12:30 ADJOURN
Dr. John Aggleton  
Department of Psychology  
University Durham, South Road  
Durham DM1 3LE UNITED KINGDOM

Dr. Marilyn Albert  
Psychiatry/Gerontology (149-9124)  
Mass General Hospital  
Building 149, 13th Street
